

## après peel® hydrating balm

This soothing moisturizer hydrates normal to dry and mature skin while minimizing the appearance of fine lines and wrinkles.

### Key ingredients:

**Chasteberry Fruit Extract** – hydrates the skin.

**Soy Isoflavones** – are a rich source of the antioxidant genistein that help to improve the overall appearance of aging skin.

**Olive Fruit Oil** – is a gentle emollient and a high source of antioxidant polyphenols.

**Wheat Germ Oil** – is an effective emollient with a high percentage of the omega-6 essential fatty acid (EFA) gamma linolenic acid (GLA) and vitamin E.

**Hydrolyzed Milk Protein** – is an emollient and moisturizer.

**Directions for use:** smooth onto skin day or night after cleansing, toning and applying any PCA SKIN® treatment serums. Apply a small amount and allow it to penetrate. During the day, follow with the appropriate PCA SKIN broad spectrum SPF product.
