

nutrient toner

This formulation of vitamins, enzymes, amino acids and alpha hydroxy acids helps refine pores, remove superficial dead skin cells and provide added nutrients.

Key ingredients:

Pumpkin Wine – is produced by fermenting enzymatically predigested whole pumpkin, releasing the many nutritional benefits of pumpkin.

Aminoguanidine – supports aging skin and keeps it soft and supple.

Glutathione – is a potent, endogenous antioxidant that is produced naturally by the body.

Lactic Acid – is an alpha hydroxy acid (AHA) naturally found in milk and sugars. It is part of the skin's natural moisturizing factor (NMF) and moisturizes the skin.

Directions for use: after cleansing, moisten a cotton pad with a small amount of **Nutrient Toner** and apply in upward and outward strokes over the face and neck. It may be used once daily or as needed. Follow with the appropriate PCA SKIN® treatment serums and broad spectrum SPF product in the daytime and moisturizer in the evening.
